

BeachRex

CORPORATE IDENTITY

Brand Guidelines

Logo · colours · usage · files — v1.0, October 2026

01 — LOGO

Logo versions

The logo combines the symbol (a sun rising over the horizon) with the BeachRex wordmark. The horizontal version is primary. Use the stacked version in narrow or square spaces, and the standalone symbol only where the brand is already clear (app icon, favicon, profile picture).

Primary — horizontal

Stacked

Symbol

Wordmark

02 — COLOUR VERSIONS

The logo on different backgrounds

Use the full-colour logo on white or light (Sand) backgrounds. On teal, dark or photographic backgrounds, use the white version. The black version is for single-colour print and stamps; the teal and orange one-colour versions are for embroidery, engraving and one-colour printing.

Full colour — white

Full colour — Sand

White — teal background

White — dark background

Black — one-colour print

White — orange background

One-colour teal

One-colour orange

Full colour — dark background (allowed)

03 — SPACE & SIZE

Clear space and minimum size

Always keep clear space around the logo of at least **X** — the x-height of the wordmark (the height of the “e”). Keep text, page edges and other graphic elements out of this area.

Dashed frame = minimum clear space (X on all sides).

Version	Print	Screen
Horizontal	35 mm	140 px
Stacked	20 mm	80 px
Wordmark	25 mm	100 px
Symbol	8 mm	16 px

Minimum widths keep the wordmark legible and stop the sun rays from merging. Below these sizes, use the standalone symbol.

04 — COLOURS

Colour palette

Teal (the sea) and orange (the sun) are the primary colours, taken directly from the logo. Deep Sea and Sand are supporting colours for text, backgrounds and UI. CMYK and Pantone values are a starting point — confirm them with your printer on a proof before a large print run.

BeachRex Teal

HEX #00B2C9
RGB 0 178 201
CMYK C80 M0 Y20 K0
PANTONE 3125 C (approx.)

BeachRex Orange

HEX #EB8751
RGB 235 135 81
CMYK C0 M56 Y70 K0
PANTONE 7577 C (approx.)

Deep Sea

HEX #0F3B45
RGB 15 59 69
CMYK C90 M50 Y45 K45

Sand

HEX #FFF4E8
RGB 255 244 232
CMYK C0 M4 Y9 K0

White

HEX #FFFFFF
RGB 255 255 255
CMYK C0 M0 Y0 K0

05 — MISUSE

What not to do with the logo

Only use the logo from the supplied files. Don’t redraw it, retype the wordmark in another typeface, or change the proportions between the symbol and the wordmark.

Don’t stretch or squash

Don’t change the colours

Don’t rotate

Don’t add shadows or effects

No full-colour logo on teal or orange

Don’t retype the wordmark

06 — FILES

Which file to use when

- **SVG** — web, apps, Figma. Vector, any size.
- **PDF** — printers, InDesign, Word/PowerPoint. Vector.
- **EPS** — legacy software, printers, engraving, embroidery. Vector.
- **PNG** — documents, email, social media. Transparent background, 1000 and 3000 px.
- **Favicon_App** — favicon.ico/.svg, apple-touch-icon, Android icons, site.webmanifest and an HTML <head> snippet.
- **Social** — 1080² profile pictures, 1200×630 OG image, LinkedIn, Facebook and X covers.
- **Barve (Colours)** — Adobe swatches (.ase), CSS variables, JSON.
